***(or just \$20.65 when you buy 2 or more bundles)***

A former Hollywood screenwriter, Michel Potts was more than someone who did mere card tricks. He was a storyteller who used a deck of cards to engage his audiences as he took them on a magical journey, at the end of which, they were both entertained and thoroughly deceived. That's why, watching Michel perform was an experience his audiences didn't soon forget and one they wanted to relive with their friends and associates as soon as they could return to Hemingway's in Bangkok, Thailand – the popular dining and drinking establishment where the late Michel Potts was the Resident Magician. Over a period of many years, Michel partnered with us to share his material. And so his legacy, and these performance gems, have been preserved for you. Everything is explained – every move, every word, every nuance, every subtlety.

STAN LOBENSTERN PRESENTS

### "PREMONITION OUTDONE"

First released in the 1960s, PREMONITION OUTDONE is a true two-deck miracle! Here's the effect: Magician displays two decks—one red, one blue. A spectator is allowed a choice of either one. From the chosen deck the spectator freely selects any card. The card that he selects will be the ONLY card MISSING from the other deck...and is indeed the same card because it is the only card from the chosen deck that has a back color matching the other deck! Watch their jaws drop! Incredibly, the entire trick is self working and mechanical. Works every time. No rough-smooth principle. No wax; no sleights; no codes or formulas to remember; no threads; no wires; no mirrors or stage traps! Best of all...NO FORCING OF CARDS! Everything is done openly. Spectator handles the cards. If you do Premonition, then PREMONITION OUTDONE will throw you for a loop. Perfect for the close-up worker. We supply Stan Lobenstern's original instructions with routine and suggested patter, along with instructions explaining how to make up the special decks in minutes. Note, you'll require three decks, none are supplied. \$4.00 PDF

### JACK LONDON'S MASTER MENTAL ADDITION

The performer shows the audience an envelope that contains a prediction. Three members of the audience are each asked to select any three cards that they desire from a face up pack. The choice is absolutely free! The performer now shows his prediction to a member of the audience and has him initial the prediction and hold it. The performer now turns to the people who selected the cards and asks them to mix them up—so there is no particular or psychological sequence involved. He then picks up a large cardboard and has the three members of the audience call out the numbers on their cards in any order that they wish. The numbers are written on the cardboard and totaled. This is done openly. There is no switch—in fact, a member of the audience may write down the numbers and total them! The spectator holding the prediction reads it aloud and it is the correct total! Remember! The spectator saw the prediction before the order of the numbers was selected. There are no switches of any kind. And, you can use more numbers, spectators, or both to get a larger total—FURTHERMORE—you can repeat this instantly! If you prefer, you may use number cards, or you may have the spectators call out numbers which you write on small index cards. \$6.00 PDF

### BOB MASON'S JUST THINK

This Bob Mason gem is a real baffler! Spectator shuffles a deck and takes a handful of cards, magician never knows how many. Spectator looks over his cards and JUST THINKS OF ONE, and shuffles his packet. He returns the cards to the deck. The magician, during the course of showing the spectator cards one by one, KNOWS INSTANTLY WHEN SPECTATOR IS LOOKING AT HIS MENTALLY SELECTED CARD!!! NO SLEIGHTS—NO MATH FORMULAS—NO PREPARATION—USE A BORROWED DECK—YOU NEVER LOOK AT A SINGLE CARD!!! Presented as a "test" of a spectator's ESP abilities, "Just Think" first engages and then, badly fools your audience! \$4.00 PDF

### ULTIMATE HUMMER MONTE TWO VERSIONS. ENDLESS POSSIBILITIES.

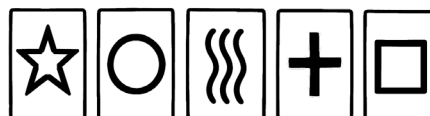

Bob Hummer's Mathematical 3-Card Monte gets the ultimate upgrade. In this expanded manuscript, we give you not one, but two powerful versions of Hummer's famous effect—an easy-to-perform close-up version based upon Hummer's original handling along with a little-known variation developed by Sam Schwartz that allows you to perform this self-working, mental miracle under virtually any conditions, even remotely over the phone or on a video call. Plus, as a special bonus, we've even included Bob Hummer's original instructions—first published by Frank Werner in 1951. \$4.00 PDF

### JOE RIDING'S ROPED IN

When Joe Riding performed ROPED IN at The Magic Castle in the 1970s, Dai Vernon said, "Joe, I have never seen anyone get as much entertainment from a Rope routine as you did." ROPED IN combines The Professor's Nightmare with The Conway Rope Trick. Completely angle proof, the routine has plenty of built-in laughs with the lines and various bits of business he gives you, and uses just one spectator, one piece of rope, and a pair of scissors. Our PDF also includes the Professor's Nightmare (with improved visual ending). \$6.00 PDF

### ULTRASENSORY CONNECTION

An ESP Card routine by Franz Rosensteiner, better known as Magic Ronnay of Vienna. This carefully constructed showpiece unfolds in five engaging phases, each building upon the last. Designed to run about fifteen to twenty minutes in full, each phase flows smoothly into the next, yet any of the five can also stand alone for maximum versatility. \$5.00 PDF

### MAGICAL MENTALISM

A dozen subtle, ingenious John Booth effects. Highlights include Les Cartes Du Diable, an impromptu card divination with a borrowed deck; Pen-Plexity, where a fountain pen (yes, even a modern one) "remembers" what was written by a spectator; and The Man with the Calendar Mind, Booth's brilliant shortcut to instantly naming the day of the week for anyone's birthday, holidays, or dates. Other standouts are Spook Smokes, a haunting mystery where cigarette or cigar smoke trapped in a glass reveals its brand to you or your assistant; The Miracle Code, a completely silent system for transmitting cards or objects to an assistant in another room; and Boothism, a bold two-person system. \$5.00 PDF
